

Sustainable Solutions Program for Food Service Companies

We offer a unique program designed specifically for food service companies emphasizing environmental stewardship and educating consumers on sustainability efforts.

CHALLENGES

Food service industries struggle with recycling and waste management due to:

- Food waste in the recycling stream.
- Lack of recycling infrastructure.
- Influence of consumer behavior.
- Traditional waste handling is not environmentally sustainable.

SOLUTIONS

Our comprehensive program incorporates:

- Device that retrofits to your bins.
- Recycling stream protection.
- Data collection & reporting.
- Quarterly awards for consumers.
- Quarterly feedback on program performance.

Topper Stopper™
Patent-pending.

Blue custom color is shown. The standard color is green with additional custom colors available. Additional fee may apply on custom color requests.

Program Features

- Food Service Application.
- Three (3) Topper Stopper™ units.
 - Retrofits to existing recycling bins.
 - Easy scan of barcode to deposit. Items that cannot be scanned will not be deposited.
- One (1) year of TS Analytics™ data and reporting.
- Award Program for Twelve (12) Months.
 - Awarded as incentives for consumers engaging with the Topper Stopper™.

\$7,200.00

Yearly TS Analytics™ Subscription: \$2,500.00
(After 1st year)

Activation

- Award recyclers of Coca-Cola packaging with 25 t-shirts per quarter.
 - Enables sustainability/facility managers to build-out communication programs.
 - Shirts will be shipped to the office of sustainability where award winners can collect them.
- Quarterly feedback on recycling program.
 - Data on the quantity of products collected.
 - Data on the types of products collected.
 - Data on scanned products that were rejected.
 - Data on bin level fullness. Notification when bins need servicing.
